SUMMARY

I am a Full Stack Web Developer with experience in Ruby and JavaScript Libraries and Frameworks. An open-source enthusiast with a love for debugging and the ability to perform well in a team. I am seeking opportunities to utilize my technical skills and continue my development as a Full Stack Web Developer.

SKILLS

Front-End: JavaScript, React, HTML5, CSS3, Bootstrap.
Back-End: Ruby, Rails, MySQL.
Tools & Methods: Git, GitHub, Mobile/Responsive Development, Chrome Dev Tools.
Professional: Remote Pair-Programming, Teamwork, Mentoring.

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Developer

Space Travels — This is a web application for a company that provides commercial and scientific space travel services. The application will allow users to book rockets and join selected space missions. All information is actual live data from the SpaceX API.

- **Built with: JavaScript, HTML, React, Redux, & API.**   Jun 2022 – Jun 2022

MovieSpace — This web application is based on an external API. We selected an API that provides data about top-rated movies and then built a web app around it. The web app has two user interfaces.

- **Built with: JavaScript, HTML, CSS, Webpack & API**.   Mar 2022 – Mar 2022

Riyadh Season — This website gives users a little insight or an idea of how Saudi Arabia celebrates the Riyadh season annual festival, this year along with the previous one. In addition to getting to know the people behind it.

- **Built with: JavaScript, HTML, & BootStrap.**   Jan 2022 – Feb 2022

MICROVERSE   Remote
Mentor (Volunteer)   Feb 2022 – May 2022
- With my technical assistance, all of the projects my mentees have struggled to complete were approved.
- Guided my mentees until the last day, where 8 out of 10 were able to complete Microverse.
- I was fortunate enough to expand my network & developed a strong bond with 6 out of 10 of my mentees.

EDUCATION

MICROVERSE   Jan 2022 – Oct 2022
Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.
